

**STATE OF MINNESOTA
CAMPAIGN FINANCE AND PUBLIC DISCLOSURE BOARD**

.....
October 6, 2021

Meeting conducted remotely though Webex due to COVID-19 pandemic

.....
MINUTES

Members present: Flynn, Leppik, Rashid, Rosen (arrived during executive director's report, left during executive session), Soule (left during executive session), Swanson

Others present: Sigurdson, Engelhardt, Olson, Pope, staff; Hartshorn, counsel

The meeting did not strictly follow the order of business set forth in the agenda.

MINUTES (September 1, 2021)

After discussion, the following motion was made:

Member Flynn's motion:	To approve the September 1, 2021, minutes as drafted.
------------------------	---

Vote on motion:	A roll call vote was taken. All members voted in the affirmative (Rosen absent).
-----------------	--

CHAIR'S REPORT

A. 2021 meeting schedule

The next Board meeting is scheduled for 10:00 a.m. on Wednesday, November 3, 2021.

EXECUTIVE DIRECTOR REPORT

Mr. Sigurdson presented members with a memorandum regarding this matter that is attached to and made a part of these minutes. Mr. Sigurdson told members that staff had conducted one compliance training in September for 40 attendees and that another training would be held on October 7th. Mr. Sigurdson said that the September training also had been recorded and posted on the Board's website.

Mr. Sigurdson next reviewed the 2020 Political Contribution Refund (PCR) Report. Mr. Sigurdson said that in August of each year, the Department of Revenue (DOR) reports to the Board the number of PCR refunds, and the total value of the refunds, issued to donors in the prior calendar year. Mr. Sigurdson stated that this report provides the refund totals for individual candidate committees and for political party units. Mr. Sigurdson then compared the total refunds, and percentage of contributions refunded, for donors to candidates of different political parties and to party units. Mr. Sigurdson noted that this was the first year that more refunds were issued to donors to Democratic party units than to

donors to Republican party units. Mr. Sigurdson also noted that 2008 was the peak year for refunds and that participation in the program had been declining since that year.

Mr. Sigurdson then presented the 2019-2020 Campaign Finance Summary to members. Mr. Sigurdson said that Mr. Olson had overseen the completion of the summary for the first time and that Mr. Sigurdson greatly appreciated Mr. Olson's efforts to quickly become familiar with the campaign finance database and the numerous queries needed to generate the report. Mr. Sigurdson said that the summary was provided for informational purposes only and that no Board action was necessary.

ENFORCEMENT REPORT

A. Discussion items

1. Administrative termination of lobbyist Rafael Espinosa (4696)

Mr. Olson told members that AFSCME 65 and Carver County Local 2789 had asked that the lobbyist registration of Mr. Espinosa be terminated retroactive to February 9, 2021, as he was no longer employed by those principals. Mr. Olson said that Board staff had attempted to contact Mr. Espinosa to ask him to file termination statements, but he had not done so. Mr. Olson stated that a reporting lobbyist for the same principals had filed disbursement reports inclusive of Mr. Espinosa through May 2021, so there would be no outstanding reports if the termination was retroactive to February 2021.

After discussion, the following motion was made:

Member Leppik's motion:

To approve the administrative termination of lobbyist Rafael Espinosa.

Vote on motion:

A roll call vote was taken. All members voted in the affirmative.

2. Balance adjustment request – Mahoney (Tim) for House (15823)

Mr. Olson told members that the Mahoney committee's actual cash balance at the end of 2020 was \$3,010.42, which was \$400.17 less than the ending cash balance of \$3,410.59 listed on the committee's amended 2020 year-end report. Mr. Olson said that the committee believed that the discrepancy likely accumulated over the course of several years, prior to 2019, and was unsure of the cause. Mr. Olson stated that the committee was requesting a downward balance adjustment of \$400.17 to its 2020 ending cash balance. Mr. Olson said that the committee would file a termination report by mid-October.

After discussion, the following motion was made:

Member Rashid's motion: To approve the Mahoney committee's request for a downward balance adjustment of \$400.17.

Vote on motion. A roll call vote was taken. All members voted in the affirmative.

B. Waiver requests

1. Jaden Partlow (Senate candidate) – Candidate EIS - \$100 LFF, \$1,000 CP

Candidate's EIS was due 6/15/2020 and was filed 7/8/2021. Candidate stated that he was unaware of the need to file an EIS despite multiple communications from Board staff and no motion was made to grant his waiver request at the July 2021 Board meeting. Candidate is seeking reconsideration of his request due to his inability to pay the amount owed, and in the alternative has requested a payment plan of \$100 per month. Candidate was referred to the Attorney General's Office in Sept. 2020 and was served with a summons and complaint on 6/18/2021. RECOMMENDED ACTION: Approve requested payment plan of \$100 per month.

Jaden Partlow then addressed the Board. Mr. Partlow told members that he filed for office on a whim and didn't think that anything would come of his filing. Mr. Partlow said that he didn't understand that he needed to file anything other than his affidavit of candidacy. He stated that he let the matter slip until he was contacted by Board staff. In response to questions from members, Mr. Partlow said that he had never registered a committee with the Board and had no plans to run for office again.

After discussion, the following motion was made:

Member Rosen's motion: To reduce the civil penalty to \$700 and to allow the executive director to enter into an agreement with Mr. Partlow spreading payment of the remaining \$800 owed over six months.

Vote on motion: A roll call vote was taken. All members voted in the affirmative.

Name of Candidate or Committee	Late Fee/ Civil Penalty Amount	Reason for Fine	Factors for Waiver and Recommended Action	Board Member's Motion	Motion	Vote on Motion
1. Duluth Building Trades Voluntary Party Fund (30217)	\$1,000 LFF	2020 Pre-primary 24-hour notice	24-hour notice due 7/25/2020 regarding \$2,000 contribution from fund's supporting association was not filed and contribution was first disclosed on September report filed 9/22/2020. Supporting association was unaware of 24-hour notice requirement. Over past decade, fund has not reported receipt of any contributions that would have triggered 24-hour notice requirement. Board typically reduces 24-hour notice late fees for first-time violations to \$250. Fund reported cash balance of \$547 as of 12/31/2020. RECOMMENDED ACTION: Reduce LFF to \$250	Member Leppik	To approve the staff recommendation.	A roll call vote was taken. All members voted in the affirmative.

C. Informational Items

1. Payment of civil penalty for corporate contribution

Sibley County DFL, \$500

2. Payment of civil penalty for recordkeeping violation

Mahoney (Tim) for House, \$475

3. Payment of civil penalty for prohibited contribution during legislative session

Minnesotans for Julie Blaha, \$250

4. Partial payment of civil penalties for conversion to personal use and false certification

Tamara Jones, \$186

5. Payment of civil penalty for exceeding individual contribution limit

IFO Political Action Committee Fund (Inter Faculty Organization), \$100

6. Payment of civil penalty for exceeding party unit aggregate contribution limit

Citizens for Jeff Backer Jr House, \$100

7. Payment of late filing fee for 2020 year-end report of receipts and expenditures

60th Senate District RPM, \$250
Somali American Women Political Action Committee, \$250
Minnesotans for Julie Blaha, \$75 (failure to timely amend)

8. Payment of late filing fee for 2020 pre-general 24-hour notice

Volunteers for Dori (Trossen), \$250
Take Action PAC, \$250

9. Payment of late filing fee for 2020 pre-primary 24-hour notice

North Central States Carpenters PAC, \$250

10. Payment of late filing fee for 2019 year-end report of receipts and expenditures

Joe Patino Campaign, \$250

11. Partial payment of late filing fee for lobbyist disbursement report due 1/15/2020

Marcus Harcus, \$150

12. Payment of late filing fee for original EIS

Kelly Gunderson, \$100

13. Payment of civil penalty for original EIS

Kelly Gunderson, \$500

14. Return of public subsidy due to subsidy exceeding expenditures

Matt Klein for Senate, \$1,468.57

15. Forwarded anonymous contributions

Freeborn County RPM, \$50

RECONCILIATION OF CONTRIBUTIONS IN 2020

Mr. Sigurdson presented members with a memorandum regarding this matter that is attached to and made a part of these minutes. Mr. Sigurdson told members that in 2013, the Star Tribune discovered that over \$20 million dollars in contributions reported between registered committees during the years 2000 to 2012 could not be reconciled. Mr. Sigurdson said that staff confirmed that this problem existed and worked through early 2015 to reduce the unreconciled contributions. Mr. Sigurdson stated that in August 2015, staff reported on the reconciliation and the steps that had been implemented to prevent this issue from occurring again. Mr. Sigurdson said that the Board then directed staff to stop the active

reconciliation of pre-2014 contributions and to report annually to the Board regarding the reconciliation of contributions for the prior reporting year.

Mr. Sigurdson next told members that for the 2020 year-end reports, 93.73% of the contributions between registered entities on those reports initially reconciled and \$2,533,949 in reported contributions did not reconcile. Mr. Sigurdson said that by one week ago, the unreconciled amount had been reduced to \$3,065. By October 6, 2021, the unreconciled amount had been further reduced to approximately \$1,000. Mr. Sigurdson stated that the reconciliation process takes considerable staff time to complete. Staff initially reach out informally through email to treasurers with reconciliation issues and ask them to review their records on specific contributions. Mr. Sigurdson said that although the informal approach resolves a significant number of problems, formal letters requiring a response had to be mailed to 343 candidate committees and 281 political committees and party units. Mr. Sigurdson stated that in almost all cases, amendments were secured from the donor, the recipient, or both to resolve the discrepancies. Mr. Sigurdson said that staff member Melissa Stevens was primarily responsible for the reconciliation outreach and he commended her for her efforts.

ADVISORY OPINION 454

Mr. Sigurdson presented members with both public and nonpublic memoranda regarding this matter. Only the public version of the memorandum is attached to and made a part of these minutes. Mr. Sigurdson told members that the requester of this opinion was a political party unit registered with the Board that had not agreed to make the matter public. Consequently, the requester's name remained private and public and nonpublic versions of the draft advisory opinion had been prepared. Mr. Sigurdson said that the requester asked for guidance on three issues related to the operation of a meeting facility that would be available only to dues paying members. Mr. Sigurdson stated that the requester had explained that memberships would be offered to office holders affiliated with the requester's political party and to selected members of the public. Mr. Sigurdson said that the request asked if the use of the facility would represent a contribution from the party unit to the elected members; if the membership dues paid to the party unit would have to be disclosed to the Board as contributions received; and what limitations would apply if a lobbyist paid for membership. Mr. Sigurdson told members that the draft opinion provided that Chapter 10A required disclosure of an approved expenditure by the party unit for the benefit of using the facility by elected members; that the membership dues must be disclosed as contributions to the party unit; and that the legislative sessional prohibition on contributions from lobbyists did not prevent a lobbyist from using the facility during a legislative session as long as the membership dues had been paid before the start of the legislative session.

After discussion, the following motion was made:

Member Rosen's motion:	To adopt both the public and the nonpublic versions of the advisory opinion as drafted.
------------------------	---

Vote on motion:

A roll call vote was taken. All members voted in the affirmative.

LEGAL COUNSEL'S REPORT

Mr. Hartshorn presented members with a legal report that is attached to and made a part of these minutes. Mr. Hartshorn told members that since the legal report was prepared, a judgment had been entered in the Swing Right matter, a summary judgment motion had been filed in the Blaeser matter, and a default judgment motion had been filed in the Hullermann matter.

OTHER BUSINESS

There was no other business to report.

EXECUTIVE SESSION

The chair recessed the regular session of the meeting and called to order the executive session. Upon recess of the executive session, the chair had nothing to report into regular session.

There being no other business, the meeting was adjourned by the chair.

Respectfully submitted,

Jeff Sigurdson
Executive Director

MINNESOTA CAMPAIGN FINANCE BOARD

Date: September 29, 2021

To: Board Members

From: Jeff Sigurdson, Executive Director

Telephone: 651-539-1189

Re: Executive Director's Report

Campaign Finance Training: Staff conducted a Webex campaign finance compliance training class on September 14, 2020. About 40 candidates and treasurers attended the training. The next Webex training is scheduled for the evening of October 7th at 6:00 PM; as of the date of this memo 53 individuals have signed up for the class. A recording of the September 14th class is also available on the Board's website.

Political Contribution Refunds in 2020: The political contribution refund (PCR) program is administered by the Department of Revenue (DOR) as provided in Minnesota Statutes section 290.06. The program provides that an eligible Minnesota voter who makes a cash contribution to a candidate who has signed the public subsidy agreement, or to a major or minor political party unit, may apply for a refund from the DOR. The maximum amount that may be refunded in a calendar year is \$50 per person, or \$100 per married couple. The DOR tracks refunds so that no individual receives more than a \$50 refund in a calendar year.

The Campaign Finance Board provides a computer file to the DOR that lists all candidate committees that have a current public subsidy agreement on file and all political party units registered with the Board. The DOR uses that information to verify that the donor gave to a candidate or party unit eligible to issue a PCR receipt. The Board also provides paper PCR receipts to eligible candidates and party units and has developed the Campaign Finance Reporter software so that the software can be used to generate a PCR receipt.

In August of each year the DOR reports to the Board the number of PCR refunds, and the total value of the refunds, issued to donors in the prior calendar year. The report provides the refund totals for individual candidate committees and political party units. The report is posted on the Board's website at: <https://cfb.mn.gov/citizen-resources/board-programs/public-subsidy-of-campaigns/historical-use-of-public-subsidy-program/>. On the website there are separate reports for candidates and party units for the years 2013 through 2020.

The Board compares the PCR refunds issued for contributions to candidates and political party units to the contributions disclosed on the reports of receipts and expenditures filed with the Board. The comparison is used to verify that the value of the refunds issued to contributors to a

candidate or party unit do not exceed the contributions reported as received by that same candidate or party unit.

In 2020 the DOR issued 35,293 refunds with a total value of \$3,517,084. Of that amount \$1,326,904 was issued for contributions made to candidates, and \$2,190,180 was issued for contributions to political parties.

In 2020, individuals contributed about \$1,700,000 more in total contributions to DFL candidates than RPM candidates. Nonetheless, in total, individuals who contributed to RPM candidates were refunded more by the DOR than contributors to DFL candidates. The DOR refunded about 20% of all funds contributed to RPM candidates by individuals, compared to about 13% for individuals who contributed to DFL candidates, as seen in Figure 1.

Figure 1

Historically, RPM party units have issued more PCR receipts than DFL party units, but for the first time since at least 2002, individuals who contributed to DFL party units received more in total refunds, \$1,162,659, than contributors to RPM party units, \$1,022,355, see Figure 2.

Figure 2

In 2020 contributors to minor political parties received the following total refunds: the Independence Alliance Party \$600, the Legal Marijuana Now Party \$200, the Libertarian Party of Minnesota \$1,150, the Green Party of Minnesota \$1,930, and the Grassroots Legalize Cannabis Party \$1,125.

The 2020 reports for PCR refunds issued by specific candidate committees and political party units are attached to this report.

2020 Campaign Finance Summary

Attached to this report is the campaign finance summary covering the 2019 – 2020 election segment. The report is filed with the legislative reference library. So that the report is as accurate as possible it is not finished until after the reconciliation of contributions from registered committees referenced above is substantially complete.

Because of size considerations I'm not including a print out of the summary in the mailed meeting material. The summary is 559 pages long. It is available on the Board's website at [2019 - 2020 Campaign Finance Summary \(mn.gov\)](https://www.mn.gov) .

2019 - 2020 Minnesota Campaign Finance Summary

The Campaign Finance and Public Disclosure Board is charged with collecting campaign finance disclosure reports from the state office candidates, political party units, political committees and funds, independent expenditure committees and funds, and ballot question committees and funds that are regulated by Minnesota Statutes Chapter 10A. This summary of campaign finance information is derived from the reports filed with the Board during 2019 and 2020, and provides condensed information on financial activity and status at the end of 2020 as reported by each candidate, party unit, and committee or fund. Additionally, this summary includes a comprehensive listing of all major donors during the two-year period with the amount of each contribution. The summary also lists independent expenditures made for and against candidates in 2020.

Contribution and spending limits apply to a two-year period of time. The two-year periods are referred to as election cycle segments. Each segment contains one odd-numbered non-election year and one even-numbered election year. However, while contribution and expenditure limits apply to a two-year segment, campaign finance activity is reported on a calendar year basis. The information for each committee or fund in the summary is provided for calendar years 2019 and 2020.

The 2019-2020 election cycle segment contained the 2020 general election at which state Senate, state House of Representatives, and select judicial offices were up for election. Constitutional offices were not on the ballot in 2020 and there were no constitutional amendment ballot questions before the voters. Special elections were held for Senate district 11 in February 2019, for House district 11B in March 2019, and for House districts 30A and 60A in February 2020.

Reports were filed by the principal campaign committees of 35 constitutional office candidates for four constitutional office seats, 551 House of Representatives candidates for 134 House seats, 229 Senate candidates for 67 Senate seats, and 37 candidates for 28 judicial seats up for election. Those totals include 21 legislative candidates in four special elections to fill vacancies in office. The summary includes indicators that identify the candidates who won primary and general elections. Additionally, this summary includes data supplied by 317 political party units and 445 political committees and funds registered with the Board.

Independent expenditure political committees and funds and ballot question committees and funds are permitted to accept corporate and other unregistered association contributions but are limited to making independent expenditures, making ballot question expenditures, and contributing to other independent expenditure and ballot question committees and funds. This summary includes reported information for 73 independent expenditure committees and funds and two ballot question committees and funds.

The information provided for each party unit, committee, or fund includes total contributions received, total contributions made, total expenditures, beginning and ending cash balances, and, if applicable, the total amount of public subsidy payments received. Outstanding loans payable, unpaid bills, and disbursements other than campaign expenditures are not itemized in the summary but are reflected in the totals reported in the summary. The data filed in campaign finance reports generally has not been verified or audited by the Board. The data will not be updated to reflect amendments filed after the issue date of the summary.

Over the years 2019 and 2020, Senate candidates who filed for office reported receiving \$6,001,287 from individual contributors, \$1,066,412 from political committees and funds, \$580,207 from political parties, and \$367,177 from lobbyists. Public subsidy payments to Senate candidates totaled \$1,063,827. During that period House candidates who filed for office reported

receiving \$6,040,116 from individual contributors, \$1,211,491 from political committees and funds, \$873,020 from political parties, and \$326,915 from lobbyists. Public subsidy payments to House candidates totaled \$1,068,062. During that period a total of \$451,608 in receipts was reported by 16 judicial candidates who filed for office.

Not included in the above totals are committees of candidates who did not file to appear on the ballot during the 2019-2020 election cycle segment. During that period committees for constitutional office candidates reported receiving \$2,527,032 in receipts and making total disbursements of \$1,266,592. Legislative and judicial candidates who did not file for office reported receiving \$2,527,032 in receipts and making \$1,266,592 in total disbursements.

The following is a summary of contributions of \$500 or more received during the 2019-2020 election cycle segment by candidates who filed for office. Contributions totaling at least \$500 within a calendar year made by a contributor to a single candidate are treated as a single contribution. Senate candidates received \$3,511,022 from 4,396 contributions (44% of the total contributions received by Senate candidates in 2019 and 2020 who filed for office). House candidates received \$3,547,553 from 4,276 contributions (42% of the total contributions received by House candidates in 2019 and 2020 who filed for office). Judicial candidates received \$227,253.58 from 182 contributions (60% of the total contributions received by judicial candidates in 2019 and 2020 who filed for office). A listing of the candidate committees that received contributions of \$500 or more and the source of those contributions begins on page 117.

Most non-judicial candidates voluntarily agree to limit expenditures in order to receive public subsidies. These subsidies include direct payments to eligible candidates during election years and the right to participate in the Political Contribution Refund (PCR) program. Agreements to abide by spending limits in order to receive public subsidies were signed by 95% of non-judicial candidates who filed for office and registered a principal campaign committee. A total of \$2,131,750 in public subsidy funds was distributed to legislative candidates for the 2020 election and an additional \$37,264 was distributed to legislative candidates for four special elections held in 2019 and 2020. See pages 6-7 for a breakdown of public subsidy payments to 2020 general election candidates by office.

Campaign expenditures are made for the purpose of influencing the nomination or election of a candidate and apply toward the expenditure limit applicable to candidates who signed a public subsidy agreement. Excluding contributions made by candidates, during the 2019-2020 election cycle segment campaign expenditures by candidates who filed for office totaled \$7,211,793 for Senate candidates, \$7,239,320 for House candidates, and \$429,821 for judicial candidates.

Reports filed by 317 political party units during the 2019-2020 election cycle segment disclosed receipt of contributions totaling \$42,862,219, contributions made totaling \$13,176,253 to state candidate committees, other political party units, and political committees and funds, and \$10,945,854 in independent expenditures. Information on political party units starts on page 196.

Reports filed by 370 political committees and funds (not including independent expenditure and ballot question committees and funds) disclosed receipt of contributions totaling \$45,130,362, contributions made totaling \$22,680,869 to state candidate committees, political party units, and other political committees and funds, and \$2,330,752 in independent expenditures, during the 2019-2020 election cycle segment. Information on political committees and funds starts on page 219.

Reports filed by 73 independent expenditure committees and funds disclosed receipt of contributions totaling \$42,320,691, contributions made totaling \$9,311,758, which were almost exclusively made to other independent expenditure committees and funds, and independent expenditures made totaling \$13,577,744, during the 2019-2020 election cycle segment. Information on independent expenditure committees and funds starts on page 295.

During the 2019-2020 election cycle segment, 69% of all independent expenditures were made to influence Minnesota Senate races and 31% were made to influence races for the Minnesota House of Representatives. An itemization of the independent expenditures made for and against candidates begins on page 330.

- (A) Beginning with tax year 1980, taxpayers may check off \$2.00; beginning in tax year 1987 taxpayers may check off \$5.00.
- (B) Beginning with tax year 1984, no minor parties qualified for inclusion on the state income tax blank; in 1995, two minor parties qualified.
- (C) Beginning with tax year 1990, 3% of check-off is retained in the general fund for administrative costs.
- (D) For tax years 2001 - 2010, the Green Party is the only party qualifying under "Other". In 2011, the Green Party and the Grassroots Party are combined in the other column. In 2012, only the Grassroots Party is included in "Other". In 2013 and 2014, the Grassroots Party and Libertarian Party are included in "Other". Starting in 2015, the "Other" column contains the Green Party, Legal Marijuana Now Party, Libertarian Party, and Grassroots Party.

SUBJECT: Yearly Update on Reconciliation of Contributions between Registered Committees

Background

In the fall of 2013, the Star Tribune published an article describing problems found in the database of contributions to state candidates, political party units, and political committees and funds provided to the paper by the Campaign Finance and Public Disclosure Board. In particular the Star Tribune found that it could not reconcile over \$20 million dollars in contributions reported between registered committees during the years 2000 to 2012. Staff confirmed that the problems identified in the article existed, and during the remainder of 2013, all of 2014, and the first quarter of 2015, worked to reduce the number of contributions between registered entities that did not reconcile.

At the August 2015 Board meeting staff reported to the Board on the progress made in reconciling contributions, and reported on nine steps implemented by the executive director to minimize unreconciled contributions in future reporting years. The Board directed staff to stop the active reconciliation of contributions made prior to 2014, and to report annually to the Board regarding the reconciliation of contributions for the prior reporting year. This memo provides the status of the reconciliation of contributions between registered entities reported in 2020.

Reconciliation of 2020

The 2020 year-end reports of receipts and expenditures were due on February 1, 2021. The reports were processed using procedures designed to limit the number of unreconciled contributions caused by data entry errors. These procedures include double checking the data entry of paper reports by staff and requiring treasurers to submit complete amended reports if warranted.

In Table 1 the 2020 reconciliation numbers are highlighted in grey. The years 2010 – 2019 are provided for comparison.

Table 1

Year	Total Itemized Transfers Between Registered Committees	Amount Initially Not Reconciled	Percentage Initially Reconciled	Current Amount Not Reconciled	Percentage Currently Reconciled
2010	\$25,459,972	\$4,791,084	81.18%	\$31,968	99.87%
2011	\$4,087,836	\$500,960	87.75%	\$5,870	99.86%
2012	\$32,772,360	\$4,326,600	86.80%	\$19,614	99.94%
2013	\$4,506,703	\$417,657	90.73%	\$8,167	99.82%
2014	\$24,647,813	\$1,955,927	92.06%	\$30,561	99.88%
2015	\$5,125,778	\$530,272	89.65%	\$1,430	99.97%
2016	\$32,920,683	\$5,621,789	83.02%	\$20,858	99.94%
2017	\$5,548,494	\$180,393	96.69%	\$7,175	99.87%
2018	\$43,457,655	\$2,514,075	94.21%	\$10,500	99.98%
2019	\$8,015,000	\$363,378	95.47%	\$5,165	99.93%
2020	\$40,444,505	\$2,533,949	93.73%	\$3,065	99.99%
Totals	\$226,986,799	\$23,736,084	89.54%	\$144,373	99.94%

The reconciliation process takes considerable staff time to complete. Staff initially reached out informally through email to treasurers with a reconciliation issue and asked them to review their records on specific contributions. A significant number of problems were resolved through emails and subsequent amendments. Formal letters requiring a response were mailed to 343 candidate committees and 281 political committees and party units in March and April of this year. In almost all cases, amendments were secured from the donor, the recipient, or both to resolve the discrepancies. Staff is still working with five committees to resolve contributions that do not reconcile.

Re: Advisory Opinion 454

This advisory opinion request was received on September 2, 2021. The requester is a political party unit registered with the Board. The party unit does not wish to make their request public. Therefore, the draft opinion that is provided to the public does not identify the requestor. The Board will only discuss the public version of the draft opinion during regular session.

ADVISORY OPINION 454

SUMMARY

A political party unit may lease meeting space for use by elected members of the party and other individuals who pay a membership fee for use of the facility. The payment of a membership fee is a contribution to the party unit. The value of the facility may, in part, constitute in-kind contributions to the campaign committees of elected members.

Facts

As a representative of a registered political party unit (the party unit), you ask the Campaign Finance and Public Disclosure Board for an advisory opinion based on the following facts which were provided to the Board in a written request and through conversations with Board staff.

1. The party unit holds events for its members during the legislative session. Finding a location to hold these events, and for informal meetings by members, has been complicated by the pandemic and its related restrictions on the use of public space and the limited availability of private space.
2. The party unit intends to lease space for use by the party unit, elected members of the party, staff, and invited guests during the legislative session. The party unit will pay fair market value for use of the space.
3. The party unit views the cost of meeting space for its activities and its members as an expenditure for "office and other space" that supports the political purpose of re-electing its members.¹ The space will be used, in part, to support the development of legislation that supports the party's political agenda. Passage of legislation and development of policies that are in line with the party's goals will directly support the election of party candidates.
4. The leased space will not be open to the general public. In order to use the facility elected members of the party will be required to pay a membership fee that is specifically for access to the facility. The amount of the membership fee has not been

¹ Minnesota Statutes section 211B.12 listing permitted uses of funds collected for political purposes.

determined, but any fees collected will be used for the party unit's administrative costs. The party unit does not intend to pay for the lease of the facility through the membership fees paid by elected members of the party.

5. The party unit will offer limited memberships to individuals who are not elected office holders. The limited memberships will provide access to use the facility, but will not provide any other rights or duties within the party unit. Limited memberships will be offered at the discretion of the party unit. The cost of a limited membership may be greater than the membership fee for elected members of the party unit.
6. The party unit will not allow candidates to hold fundraisers at the facility during the legislative session.
7. Food and beverages will be available for purchase at the meeting facility at fair market value. Members will be responsible for the purchase of any food or beverage items for themselves or guests.
8. The party unit and its elected members are aware of and comply with the prohibition on contributions from lobbyists during the legislative session. See Minn. Stat. § 10A.273.
9. The party unit and its elected members are aware of and comply with the gift prohibition between lobbyists and public officials. See Minn. Stat. § 10A.071.

With this background in mind, the party unit asks the following questions.

Issue One

Does providing elected members with a meeting space result in a contribution from the party unit to the elected members which must be reported to the Board?

Opinion One

Yes. Minnesota Statutes section 10A.01, subdivision 4, defines an approved expenditure as follows:

“Approved expenditure” means an expenditure made on behalf of a candidate by an entity other than the principal campaign committee of the candidate, if the expenditure is made with the authorization or expressed or implied consent of, or in cooperation or in concert with, or at the request or suggestion of the candidate, the candidate’s principal campaign committee, or the candidate’s agent. An approved expenditure is a contribution to that candidate.

Minnesota Rules part 4503.0800, subpart 4, further provides, “The fair market value of shared office space or services provided to a candidate without reimbursement is a donation in kind.”

As described in the facts of the request, the membership fees paid by elected members will be applied against the administrative overhead of the party unit, and will not pay for the cost of the meeting space. For elected members, the value of the use of the facility is an approved expenditure by the party unit (a type of donation in kind) on behalf of those candidates. By definition, an approved expenditure is a contribution to the elected member's campaign committee.

The approved expenditure for use of the meeting facility is a contribution from a political party unit, and will count against the aggregate political party unit limit of the elected member's campaign committee. Because the approved expenditure counts against the political party contribution limit, if the value of the approved expenditure exceeds \$20 an elected member's campaign committee must provide a written acknowledgement to the party unit of the donation and authorizing the approved expenditure at a set amount.²

In determining the value of the meeting facility to elected members the party unit should subtract from the cost paid for the leased space and any associated costs for operating the facility the value to the party unit of holding its meetings at the location. The remaining cost is a benefit that then would be allocated among the members.

The party unit will report the value of the use of the facility as a contribution to the elected members' campaign committees. The donation will be itemized if the value of the membership is over \$200, or if the value of the membership combined with any other donation made by the party unit to the elected member during the calendar year exceeds \$200. The elected member will also report the donation in kind from the party unit on the schedule for party unit contributions, again itemizing the contribution if the value is over \$200 either individually or in aggregate with other contributions from the party unit. A donation in kind is also reported as either a campaign expenditure or a non-campaign disbursement during the same reporting period in which it is received.³

Issue Two

Does the purchase of a limited membership by a non-elected individual result in a contribution to the party unit?

Opinion Two

Yes. The membership dues are payments for services provided by the party unit, and the party unit is free to use the membership dues for any political purpose. The payment of dues, regardless of whether paid for by an elected or limited member, will be reported as contributions during the reporting period in which the payment is received. Itemization of the donation will occur if the member's dues exceed \$200 in a calendar year, or if the dues in combination with other contributions to the party unit exceed \$200 during the calendar year.

² Minnesota Statutes section 10A.17, subdivision 2

³ Minnesota Statutes section 10A.20, subdivision 3, (c) and (h)

The Board notes that Minnesota Statutes section 10A.271 provides that a political party unit that sells goods or services must provide notice to the purchaser that the payment for the item is a political contribution.

Issue Three

If a limited membership is purchased by a registered lobbyist prior to the beginning of the legislative session, will use of the membership during the session result in a violation of the sessional contribution prohibition?

Opinion Three

No. The sessional contribution prohibition applies only to soliciting or accepting a contribution from a registered lobbyist during a regular session of the legislature. A “regular session” starts at 12:00 a.m. on the first day of each annual session and ends at 11:59 p.m. on the last day of each annual session.⁴

Although access to the meeting facility will be provided during a regular legislative session, the contribution occurs when payment of the membership dues is physically received by the party unit, or if the party unit accepts payment of membership dues through electronic means, on the date when the lobbyist makes the contribution.⁵

Lobbyists who purchase limited memberships should do so with personal funds. If the association that the lobbyist represents directly pays for the membership, or reimburses the lobbyist for the membership dues, the result will either be a prohibited corporate contribution to the party unit,⁶ or a contribution from an unregistered association that may require underlying disclosure of the source of funds used to pay the membership dues.⁷
